

## DFES Built Environment Branch Guideline (GL) 05

**Revised:** March 2017  
**Valid:** September 2019  
**Authorized:** Manager Built Environment Branch

# GL – 05 Centre Point of Career Fire Station Work Areas

### PURPOSE:

To facilitate the calculation of fire brigade response times from career fire station work areas for application of Fire Brigade Intervention Model (FBIM).

*Note: A sensitivity analysis may be required in some cases, to ascertain the effect of fire brigade responding from the most extreme boundary of their work area or from the fire station address.*
